Going Green

With so much attention being given to going green, it is no surprise that cleaning companies are putting green cleaning programs into action. The Green Maintenance for Buildings Program will help you understand what green cleaning is, why you should care, the benefits of green cleaning, green organizations, procedures, what makes a product green, and how a green cleaning program works.

The Green Maintenance for Buildings Program is a **FREE**, eight to ten week training program. Classes are held 9 AM to 4 PM Monday thru Thursday and 9 AM to 3 PM on Friday for participants seeking to obtain a GED.

Training Offerings

The Green Maintenance for Buildings Program prepares individuals to work in entry-level positions primarily as janitors, porters and maintenance personnel working either in commercial or residential buildings, or for janitorial service companies.

Each student will learn **basic building operations** that include:

- **Introduction to Energy Efficiency**
- **E-Waste - Florescent Bulbs & Computers**
- **OSHA 10 - General Safety**
- **Asbestos Awareness**
- **Blue Print Reading**
- **Sheet Rock Installation**
- **Elements of Electricity & Wiring**
- **Basic Plumbing and Tiling**
- **Lock Repair**
- **Floor Care Machines**
- **Use of Tools and Janitorial Equipment**
- **Green Cleaning Products**

New York City College of Technology Division of Continuing Education offers an array of programming for over 16,000 students each year, serving businesses, union members, incumbent workers, career changers, those in need of basic skills, professionals in need of CEU’s and those wishing to engage in lifelong learning for personal enrichment.
