

1 Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)

Reference name: **Provide a new or expanded park or amenity (i.e. playground, outdoor athletic field)**

Full agency name: **Department of Parks and Recreation**

BR Type: **C**

Need: **Park, buildings, and access improvements**

Location:

Tracking Code: **214202201C**

Explanation: **CD 14 ranks last in the city in terms of the number of residents who live more than a quarter of a mile away from a park. The public health ramifications have been demonstrated by the Covid 19 pandemic. This need is a high priority.**

2 Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)

Reference name: **Reconstruct or upgrade a park or amenity (i.e. playground, outdoor athletic field)**

Full agency name: **Department of Parks and Recreation**

BR Type: **C**

Need: **Park, buildings, and access improvements**

Location:

Tracking Code: **214202202C**

Explanation: **Umma Park is in need of updating - the equipment is antiquated and the surface is in disrepair. There has been a good deal of residential development in the area thus the population in surrounding neighborhood is increasing. This park is in the most dense, and the most socio-economically neighborhood in the District, yet is the only playground in the District to not have been recently rehabilitated. The time has come to address and improve this increasingly important community asset. When CB14 first requested this upgrade, the projected cost was \$1 million. The most recent cost projection is closer to \$2 million. The cost of not taking action is high. Let's get this done before the 255 unit residential building nearby fills with families in need of an outdoor amenity.**

3 Upgrade or create new plazas

Reference name: **Newkirk Plaza**
 Full agency name: **Department of Transportation**
 BR Type: **C**
 Need: **Transportation infrastructure** Location:
 Tracking Code: **214202203C**

Explanation: **We urge DOT to include Newkirk Plaza into the Plaza Program. The infrastructure exists. An organization is willing to partner and the Plaza should be under the auspices of a City agency given that it is public property. The Covid 19 pandemic underscored the need for public outdoor space. This is one of the social determinants of public health and would serve as an economic development boost to businesses on the Plaza.**

4 Provide a new or expand an existing elementary school

Reference name: **Provide a new or expand an existing elementary school**
 Full agency name: **School Construction Authority**
 BR Type: **C**
 Need: **Schools and educational facilities** Location:
 Tracking Code: **214202204C**

Explanation: **PS 139 is at 121% of utilization; PS 127 is at 125%; PS 249 is at 128%, PS 193 is at 111%; PS 315 is at 118% and the PS 152 Annex is at 146%. Since annexes are built to address overcrowding, an overcrowded annex boldly underscores the need for additional elementary school seats in the northern end of the District. The elementary schools listed above are all north of Avenue L.**

5 Other capital budget request for DOE

Reference name: **Technology**
 Full agency name: **Department of Education**
 BR Type: **C**
 Need: **Educational programs** Location:
 Tracking Code: **214202205C**

Explanation: **The ability of the education system to continue to educate students continues to rest on technology. The digital divide in the city was brought into sharp relief. Education attainment disparities are no doubt going to be exacerbated by the lack of access to technology in the home both in terms of devices and access to broadband. This is an urgent need in our community.**

6 Build or expand incubator or affordable work or research lab spaces

<p>Reference name: Roadway Infrastructure Full agency name: Department of Transportation BR Type: C Need: Transportation infrastructure Location: Beverley Road Marlborough Rd Marlborough Rd Tracking Code: 214202208C</p>	<p>Explanation: DOT must take responsibility for the maintenance of pedestrian islands, dead ends, and sidewalk walls on road bridges. The Beverley Road bridge and the Caton Road bridge both require rehabilitation. The timeframe for repair or reinstallation of street signs continues to increase. Three years ago DOT identified \$60 million for trench repair but none of it was allocated to CD14, despite worsening conditions. There must be an increase in the expense budget for road and street infrastructure repair.</p>
--	--

9 Rehabilitate or renovate existing fire houses or EMS stations

<p>Reference name: Rehabilitate or renovate existing fire houses or EMS stations Full agency name: New York City Fire Department BR Type: C Need: FDNY facilities and equipment Location: Tracking Code: 214202209C</p>	<p>Explanation: Fund station house renovations and upgrades at Engine 255/Ladder 157; Engine 281/Ladder 147 and Engine 250 firehouses. Including the addition of a station house generator at one of these fire stations. There are no firehouses in CD 14 with a generator.</p>
---	---

10 Repair or upgrade subway stations or other transit infrastructure

<p>Reference name: Repair or upgrade subway stations or other transit infrastructure Full agency name: New York City Transit Authority BR Type: C Need: Transit Infrastructure Location: Church Ave and E 18 St Tracking Code: 214202210C</p>	<p>Explanation: Church Avenue is the most heavily utilized station in the District and is in disrepair. This line has had the most requests for security cameras.</p>
--	--

11 Roadway maintenance (i.e. pothole repair, resurfacing, trench restoration, etc.)

Reference name: **Roadway maintenance (i.e. pothole repair, restoration, etc.)** Explanation: **DOT had a \$60 million allocation for trench resurfacing, trench restoration and CB 14 received none of it. Six locations** Full agency name: **Department of Transportation** have been submitted to DOT. **564 East 29th Street; 1781**

BR Type: **C**

Need: **Transportation infrastructure**

Location:

Tracking Code: **214202211C**

Ocean Avenue/SE corner of Avenue M; 715 Ocean Parkway Service Road; Waldorf Court between East 17 and Dead End; Hillel Place and Kenilworth Place intersection; 464-476 East 16th Street. The suggestion that Community Boards should turn to local elected officials to tend to trench conditions is irresponsible.

12 Improve accessibility of transit infrastructure, by providing elevators, escalators, etc.

Reference name: **Improve accessibility of transit elevators, escalators, etc.** Explanation: **The 18th Avenue Stop on the Culver Line is on infrastructure, by providing the same block as the United Cerebral Palsey complex. This** Full agency name: **New York City Transit Authority** stop was recently upgraded. **It's unfortunate that**

BR Type: **C**

accessibility was not one of the improvements.

Need: **Transit Infrastructure** Location:

Tracking Code: **214202212C**

13 Renovate or upgrade existing precinct houses

Reference name: **Upgrade existing Precinct House.**
 Full agency name: **New York City Police Department**
 BR Type: **C**
 Need: **NYPD facilities and equipment** Location:
 Tracking Code: **214202213C**

Explanation: **While NYPD continues the search for an appropriate location for a new precinct house, the current precinct house floods and leaks and does not have adequate lockers, storage, parking, nor it is handicap accessible.**

14 Provide surveillance cameras

Reference name: **Provide surveillance cameras**
 Full agency name: **New York City Police Department**
 BR Type: **C**
 Need: **NYPD facilities and equipment** Location:
 Tracking Code: **214202214C**

Explanation: **This continues to be a common request from the community and the Precinct. CD 14 would defer to the CO as to most warranted location. While cameras are typically funded by allocations made by elected officials, we believe funding should be provided in the NYPD budget directly so that placement is not contingent on the interest level of whichever city councilmembers overlap with a Precinct.**

15 Renovate other site component

Reference name: **School sanitation**
 Full agency name: **School Construction Authority**
 BR Type: **C**
 Need: **Schools and educational facilities** Location:
 Tracking Code: **214202215C**

Explanation: **Areas to store garbage before and then areas to place bags or containers for pick up need better planning and design. Too many schools place a large number of bags out too early in the day. They are often ripped and are adding to our rodent population and public health and safety concerns.**
